Memory Markers

that link yesterday with tomorrow

The Christmas Tree of yesterday glimmers with a wondrous array of time-worn treasures, but where are those gifts of a decade ago? Let's take a backward glance. Nineteen Sixteen. That was the year we all went together although father the scarf pin and lodge emblem and mother got the diamond bar pin, remember? But what did we give Alice and Ralph that year?

How clearly the jewelled gift sparkles through the mists of memory! And how we treasure those tokens as years roll on. Long after common-place presents are forgotten, precious jewels remain, a constant reminder of love and thoughtfulness. They are Memory Markers... that link Yesterday With Tomorrow

REGULAR MEETING TOWN COUNCIL

The last regular meeting of the town council was held on Thursday evening, December 2nd, with Mayor Ringrose, Councillors Maxwell, Walls, Godley, Reincke and Anderson, and Secretary Treasurer Amundsen present.

The minutes of the previous meeting were read, and adopted on motion by Maxwell and Walls.

The report of the Auditors was read and adopted on motion of Godley and Walls. A letter was read from Macleod General Hospital in which they advised that Archie Fraser had been admitted as a patient and that he claimed to be a resident of this town. The secretary was instructed to write and inform them that to the best of the council's knowledge he is not and was not a resident of this town with in the meaning of the Act and this town assumed no responsibility for his care.

The Utility Board gas decision was read in part and tabled. The Voters' List as prepared for the 1927 election was approved on motion of Reincke and Maxwell, no applications for amendments having been presented.

Accounts as signed by the chairman of the finance committee and enumerated on a list totalling \$5466.07 were passed for payment on motion of Godley and Council adjourned on motion of Councillors Maxwell and Walls.

CURLING CLUB

ASSIGNS RINKS

The skips and membership committee of the Curling Club met on Monday evening last in Stanley Wyatt's office to assign the rinks. The following rinks were made up:

P. & W. skip, L. G. Cameron 3rd, C. Foss 2nd, Dr. Mullin lead.

A. Amundsen skip, A. Laurie 3rd, Ed. Gibble 2nd, C. Shearer lead.

D. Munro skip, G. Godley 3rd, C. Yokum 2nd, H. Patten lead.

D. Anderson skip, F. Murray 3rd, Langston 2nd, C. Milner lead.

E. Mack skip, M. Fisher 3rd, F. Murray skip, Mr. Gandier 3rd, Rev. Dalgleish 2nd, J. Howie lead.

J. Dickson skip, R. Dickson 3rd, T. Ringrose 2nd, E. G. Brown lead.

C. Brann skip, W. Mackintosh 3rd, Harvey 2nd, Rev. Barlow lead.

G. Maxwell skip, C. Wilson 3rd, J. Hagerman 2nd, M. Arnestad lead.

C. Moffatt skip, R. A. Shearer 3rd, R. Marshall 2nd, Dr. Hyman lead.

M. Wall skip, C. Moore 3rd, T. Hudson 2nd, Dr. Porter lead.

Dr. Gamay skip, J. Thorne 3rd, R. King 2nd, G. Lewis lead.

F. Wall skip, E. Gray 3rd, C. McGovern 2nd, J. L. Salmon lead.

C. W. Carney skip, E. W. Reid 3rd, C. Strangways 2nd, G. Brown lead.

The officers for the season are as follows: Patrons—G. G. Coote, M. P. Gordon Walker, M.L.A., Mayor G. W. Ringrose, Frank Murray, President—W. D. Munro, Vice-President—Dr. Gamay, Secretary—Treasurer—C. W. Carney.

Executive Committee—Stanley Wyatt and Louis Cramer. Scedule and Draws—Thomas Murray, and he to be tendered a season's membership for this service. Chaplain—Rev. R. W. Dalgleish.

Ice Committee—D. A. Anderson and Geo. Maxwell. Membership Committee—A. Amundsen, C. W. Carney and L. Cramer.

Calgary Man Honored

Distinction has come to Calgary in the appointment of E. L. Richards, manager of the Calgary Exhibition, to the position of president of the International Association of Fairs and Exhibitions at the recent convention held at Chicago.

ST. ANDREW'S DAY MERRY BANQUET

The St. Andrew's Society of Claresholm celebrated St. Andrew's Day with a banquet in the O. C. hall on the 8th inst., at which about 70 members and guests were present.

The catering was done by the Starline U.F.W.A. and they provided an excellent supper, which was daintily served.

T. K. Evans proposed the toast to "Canada" in a neat speech, while the toast to "Scotland" was presented by the President J. R. Watt. A toast to new members proposed by Wm. Mackintosh was replied to by Andrew Laurie, the new secretary of the society. S. L. Fraser gave "The Ladies" in a speech which provoked much amusement.

The tables having been cleared and removed, the remainder of the evening was occupied with pipes, songs and recitations and dance tunes. Piper Durham of Cayley was in excellent form and gave several selections of marches, strathspeys and reels. Two country dances were gone through with and the pipe played a reel at which quite a number performed.

The feature of the evening was the singing of Mr. Laurie, he giving several numbers of which the last two "Scots Wha Hae" and "Sweet Afton" were present declared they never heard better renderings of these songs.

Mrs. Patterson's singing was also very favorably received among the songs rendered by her being "Lang Lang Syne" and "Rothery Bay." Piper Durham recited two poems of his own composition, while T. K. Evans and J. R. Watt gave songs of a humorous nature in their usual style.

The proceedings came to a close with the singing of "Auld Lang Syne."

HUTTON COAL CO. WILL RESUME OPERATIONS

Mr. A. Hutton, who is a partner in the Hutton Coal Company of Lethbridge, has received word that the application of his company to the Board of Public Utilities Commissioners to dispose of 10,000 shares of their stock has been granted.

In consequence of this, stock in this company will be on the market shortly, and operations at the property will commence soon.

According to the engineers' report, the property seems to be capable of production at a profit under capable management. The amount of coal underlying the lease is estimated at approximately 3,150,000 tons. The present members of the company are: E. H. Hutton of Lethbridge, A. Hutton of Calgary, and Mr. Becker of the Becker Lumber Company, Lethbridge.

RED CROSS RE-ORGANIZES

A Red Cross re-organization meeting was held in the council chambers on Wednesday afternoon.

The following officers were elected: President, Gordon B. Walker, M.L.A.; secretary, Treasurer, J. R. Watt; committee, Mrs. Slipp, Mrs. Mullin, Mrs. Munro, Rev. W. Barlow and Rev. R. W. Dalgleish, B.A.

A canvass for membership subscriptions will be held early in 1927. The usual tag day will be held on Saturday, December 18. It is hoped that the donations on this date will be as liberal as possible, looking to the fact that no Red Cross appeal has been made locally this year.

JUVENILES WIN FIRST VICTORY

Claresholm Juvenile hockeyists played the Agricultural College on Saturday last, winning the game by a score of 5-2.

The ice was rough, but the boys put up a good game. Arrangements have been made for one game a week to take place. Mr. Howe of the college has charge of their team and predicts that the tables will be turned at the next game.

CHRISTMAS BELLS

Will soon be ringing over the land, and friend will remember friend by a gift, as a token of their friendship. Xmas stationery is always acceptable, and what could be nicer, than to add a Pen and Pencil set? We carry the world famous makes of Wahl and Parker.

Merchants Who Advertise In This
Publication Have Faith In Their Goods
YOU CAN TRUST THEM

Films Depicting Canadian Scenes Are Used To Good Advantage In Advertising This Country Abroad

Not the least important function of the Canadian government has been to correct, both at home and abroad, the erroneous impressions gained and sometimes spread by poets, novelists, dramatists and transient manufacturers. Even today there are people who cannot dissociate Canada from the Royal North West Mounted Police, polar bears, lawless Indians, rushes, thriving fur-traders and the rest of the inaccurate pictures so frequently drawn by those who know and care nothing about the Dominion.

In 1917 the Canadian Government realized the instructive value of the cinematograph camera and decided to go into the motion picture business. There then came into being as a branch of the Trade and Commerce Department the office of the Cinematograph Bureau, which has since rendered good service by depicting to the world, more clearly than in words, the wealth, opportunities and scenic beauty presented to the intending immigrant. Like the prophet of old, the words of the bureau's letters and appreciated in Canada possibly than any other of a score of countries.

On the principle that people do not appreciate fully that which is given them free of charge, the bureau has considered its campaign abroad in direct competition with the commercial cinematograph film, and has done so with great success. Canadian films have been accepted by foreign exhibitors on their own merits, in Great Britain particularly there is a steady demand for them. Not only have they attracted immigrants, but they have also attracted visitors.

Practically all the departments of the Dominion Government in Ottawa have at one time or another availed themselves of the bureau, with which increasing heavy calls are being made.

The tremendous value of the film as a medium of national propaganda is being realized by other nations of the world, which have followed Canada's example. At the present time 16 nations, headed by Great Britain, are trying to become the Canadian film world, and the latter is of such importance as to merit discussion at the Imperial conference in London. Even Imperial action will be taken on a lead sent by Canada nearly a decade ago.

Studies Age Of Fish

Major Fowler Says Some Live More Than Fifty Years

How long do fish live? Major P. S. Fowler, in a lecture before the London Zoological Society, was now interesting data on a special study he had conducted on this subject.

An electric eel in the London Zoo, it was reported, lived 50 years. A European catfish in the private aquarium of the Duke of Bedford is 50 years old and shows little indication of weakness.

Other fish age figures given by the Major were: Carp, 15 years; goldfish, 12 years; herring, 4 years; salmon, 2 years; bull trout, 14 years; trout, free, 14 years; female Spanish mackerel, 18 years; and giant salmon, 22 years.

Advocate Long Hair For Men

That long-haired men are the natural complement of the modern woman, is the not undisciplined opinion of Parisian barbers. Shingling and bobbing have come to stay, and men who no longer manipulate women's crowning glory into chignons and toupées are trying to persuade the sterner sex to allow their hair to grow.

Canadian Potato Crop

The Canadian potato crop is estimated to be 45,120,000 cwt., compared with 42,750,000 in 1925. This is made up with Prince Edward Island 2,455,000 cwt., Nova Scotia 2,332,000, New Brunswick 3,521,000, Quebec 12,769,000, Ontario 9,816,000, Manitoba 1,000,000, Saskatchewan 1,200,000, Alberta 2,540,000 and British Columbia 1,850,000.

Create Demand For Goods

Advertising Is Only Way to Keep People Interested

The finest goods in the world if merely placed on the merchant's shelves will not attract the customer. If, however, the buying public is informed that they are on the shelves then the buying public in the world are open to its demand.

The only way the buying public can be informed that these finest goods in the world are open to its demand is by advertising. It is the shortest and the most direct avenue of communication between the retailer and the consumer. It provides the latter with a means of assisting himself in the necessary "turn over." It directs the retailer to the goods for which he has been advertised. The art of the advertiser is to create a demand. In the words of President Coolidge, advertising "helps to the true development of the nation."

That this is recognized as a fact by American business is proved by the large increase in the amount of space sold by advertisers. The art of the advertiser is to create a demand. In the words of President Coolidge, advertising "helps to the true development of the nation."

Played The Game

Small Girl Would Not Cheat To Win

An old little story is making the rounds of Canadian papers. It tells of a wee girl in the first grade who, with great care and hard labor, raised a few asters for the school fair. Also, there came an eager and a rippling at a day when the school was to be made and the flowers were blighted. Realizing the loss she slipped into the little girl's coat and suggested that she should be allowed to take the flowers which the child was bravely carrying away as she went for the fair. "But that would be playing fair," responded the child and went off with her own flowers conscious that she had not been deceived.

She reached the long-anticipated show. This is one of those stories told to teach a moral and a tale, one that will be appreciated by those who have to do with fairs, and exhibitions and shows, big and little, the world over.

Guarantees His Houses

Canadian Architect Invents New System for Concrete Buildings

The city council of Norwich, England, has guaranteed the houses, to be built of concrete under a new system, on a remarkable guarantee from the inventor, D. G. Underdown, a Canadian architect.

Mr. Underdown guaranteed: To lift a house built on his system to a point and drop it to the ground without a crack.

To turn it over on its side and replace it without it bodily any reasonable distance after thirty days.

Mr. Underdown's houses are built of lightweight blocks. Two five-foot mortar joints harnessed to a pair of these blocks were unable to draw them apart.

Best Sugar Plant For Winnipeg

A party of from 300 to 200 Winnipeg business men and farmers was organized last week by the Mayor to go down for the opening of the new sugar beet factory at Grand Forks and see the agricultural and manufacturing possibilities of the best sugar industry. Experiments in the production of sugar beets in Manitoba have been progressing satisfactorily and the hope is entertained that by next fall a beet sugar plant will be established in Winnipeg.

Alberta Homesteads

Nearly 200,000 acres of homestead land have been taken up by new settlers in the Dominion land area recovered by the Edmonton Agency in the nine months of the present year.

The Publicity Commissioner of Alberta, were 1,240 including soldiers' grants, as compared with 711 filings for the same period of the previous year.

More than 2,000,000 persons are now in the Dominion, and the Government of the Pacific Coast, mainly for thirteen years, says "Here and There."

Alberta Has Bumper Crop

Second Largest Crop In History of the Province

Final compilations are expected to show that the average yield of wheat throughout the Province of Alberta this year will be 19 bushels per acre on 115,225,000 bushels. This is the second largest crop of wheat in the history of the province. The largest crop was 114,000,000 bushels in 1925.

The wheat yield this year in the three Prairie Provinces is now expected to reach about 250,000,000 bushels. Manitoba estimates a crop of 45,000,000 bushels and Saskatchewan, 208,000,000 to 225,000,000 bushels. Last year the value of the Western wheat crop was \$12,525,000 from 382,500,000 bushels.

The value has yet to be completed, but as wheat has risen sharply in the past few weeks by 12 cents or more, until it has recently reached around \$1.15 at Winnipeg, the prospects for financial reward appear excellent. The return from the wheat crop in the Prairie Provinces in recent years has been as follows: 1923, \$29,126,000; 1924, \$25,252,000; 1925, \$12,525,000.

Saskatchewan Dairy Output

Estimated Output For This Year Priced At 18,000,000 lbs.

So famous has the Province of Saskatchewan become as a great grain producing province that its importance to the world is apt to be lost sight of. A statement recently issued by the Dairy Commissioner of the Provincial Department gives some indication of how rapidly dairy production is growing. The statement reads: "Creamery butter production in Saskatchewan in August of this year amounted to 2,267,252 pounds, bringing the total production for the eighth month's period, January 1st to August 31st, to 18,453,058 pounds, an increase of 15,757,416 pounds or 16 per cent compared with the record for the corresponding period of 1925.

It is estimated that the output of this year will reach 18,000,000 pounds.

British Boy Immigrants

An annual grant equivalent to the grant given by the Dominion Government has been given to the British Immigration and Colonization Association by the Overseas Settlement Commission, a recent cable advised. This is expected to considerably extend the Association's work of settling British boys between the ages of 14 and 18 on Canadian farms. Since the society received its charter four years ago about 500 boys per year have been so named and settled.

Manitoba Pulp Mill

Paper making will start work for the month at Port Alexander at the plant of the Manitoba Pulp and Paper Company. There will be two trains weekly from the plant to Winnipeg, transporting the finished product, much of which is expected to be sent across the United States.

Trans-Atlantic Champion

W. A. Williams, of Montreal, Canada, has been the undisputed champion for trans-Atlantic journeys. He has to his credit 117 trips between America and Europe and is considered that few persons, with the exception perhaps of a few old sea captains, can claim an equal record. Williams is a commercial buyer and in the employ of the Canadian Pacific line. He has made his numerous journeys across the Atlantic. Considering that Mr. Williams' first trips were made

Boys' And Girls' Swine Club

Hardisty Boys Win Championship For C.P.R. Towns in Alberta

Walter Kohlisch and George Mathews, of Hardisty, won the title of champions this year in the Boys' and Girls' Swine Club competitions for towns on Canadian Pacific lines in Alberta, they securing for their town for a second consecutive year, the honor of representation at the Royal Alberta Exhibition at Toronto. Their score was 79.5, ranking third in the whole province in railway competition, where Hardisty ranked seventh on its first appearance. Bentley took second, and Selkirk third in the C.P.R. contest. Hardisty took first place in car lot competition.

Scheme Sounds Reasonable

Eastern Farmers Working Word Out Land Might Come to Prairie

A scheme to split the exodus of Canadian citizens to the United States and give them twice increased the farming population of the West and other more recently opened sections of the Eastern provinces, was suggested by Mr. Albert Phillippe Casgrain, director of the Catholic Immigration Association of Canada, in an interview on the subject at Quebec. The basis of Casgrain's scheme is that Canadian farmers who are unable to eke out a fair living on their soil, westward or homestead farm lands, should be given the opportunity by the Federal Government to settle in Western Canada. A plan along the lines of the Soldier's Land Settlement scheme is suggested by Albert Casgrain for the transfer of Eastern farm lands to Western Canada.

Boats Of Birds Are Hollow

Makes Them Lighter And Stronger

The bones of all flying birds are said to be hollow and filled with air, thus showing that nature knew what it was about when it designed them for the air. This air, for as any physicist will confirm, makes for not only lightness but also the great strength. A hollow bone, however, would be less strong against strain such as a flying bird is put to.

Was Chinese Invention

It is singular that the earliest invention for determining the shock of a section of an earthquake was made in China in the year 150 B.C. It was a hollow brass rod with a pendulum free to move in all directions. Many devices have been invented since then, but the father of the art is the self-registering instrument.

Oriental Industry Impaired

Storms in China and Japan Hurt Gold Fish Production

Owing to earthquakes, typhoons and late seasons, the gold fish production in China and Japan has been seriously impaired recently. These fish are grown in specially constructed lakes, which were flooded during the storms, with the result that many of the fish were killed in the streams and died from the hard life or lack of proper food. These goldfish were shipped in consignments of 40,000 to 50,000 at a time and the loss to one dealer alone was placed at \$2,000 this year.

Cousin of Prince a Dressmaker

The Prince of Wales now boasts a cousin who is a successful British street dressmaker. He is George Fitz-George, grandson of the Duke of Cambridge, in partnership with Miss Mary Taylor. In his last year, he made \$2,000. This year he was doing even better, which is not bad, considering that we started with a few hundred boxes as capital.

Has Automatic Phones

To insure fire control, Edithburg's telephone system has been changed over. The actual change-over did not take more than five minutes, and little inconvenience was caused. Between 1,000 and 12,000 lines, involving 20,000 extensions, were dealt with. Operations in the suburbs and Lethbridge are to be commenced later in the season.

Utilize Hospital Elevator

Since the Saskatchewan Red Cross acquired the facilities of the Saskatchewan Cooperative Elevator Company, it has decided to use the elevator and Smith terminal elevator at Port Arthur, with a capacity of 1,750,000 bushels at a hospital elevator.

Records taken over 50 years show that the greatest number of fatal fires in the city of Toronto occurred on the tenth week of the year, and the fewest about the thirtieth or thirty-first week.

Utilization Of Waste Lands For Development Of Fur Farming To Meet The Demand For Pelts

Take Big Yearly Toll

Million Workers Annually Disabled By Auto and Industrial Accidents

The hazard of accidents in America, were pictured by a series of speakers before sessions at the National Safety Council, at Detroit.

Dr. Harry M. Mack, Chicago, told the council that medical science has succeeded in cutting down the number of deaths from accidents, but that hospitals are being filled with victims of industrial and automobile accidents.

More than a million persons are disabled each annually upon the scrap heap and labeled "permanently disabled." He said a rehabilitation program by which the disabled could become producers instead of dependents was proposed.

Dr. Wendell C. Phillips advocated a full education of the public in disease prevention, and said that large sums of money now being used for hospital inmates, might well be used toward preventing disease.

Heavy Yield Of Grain

Reports Of Big Yields In Different Parts of Alberta

Some heavy yields of grain are being reported throughout Alberta. At Claresholm, it is reported by the Lethbridge Herald that G. A. Ward, of M.L.A., has threshed 55 bushels an acre from 46 acres of wheat. A yield of 72 bushels of wheat is reported from 125 acres on the Thompson Company farm at Spring Creek, this being second generation Margals. The best winter wheat on the farm of Armour and Brinkley, in the ready-made irrigated district near Lethbridge, has yielded 72 bushels of wheat. One irrigated farm near Taylor reports 51 bushels of wheat. At Champion, 51 bushels of 45½ bushels on one farm is reported, with 100 bushels of oats to the acre.

New Sealplane

Britain's Newest Sealplane Is Called "Flying Bunting"

Great Britain's newest sealplane has been nicknamed "the flying bunting." This is because of its cooling and sleeping accommodations. The plane carries a crew of five and driven by three high powered engines, has been designed to carry out expeditions in the Arctic with open flying service to Australia and New Zealand. Best hammocks are slung in a part of the cabin, which in the day time is the living room. The galley is big, and 18 to 22 passengers may be carried.

Oriental Industry Impaired

Storms in China and Japan Hurt Gold Fish Production

Owing to earthquakes, typhoons and late seasons, the gold fish production in China and Japan has been seriously impaired recently. These fish are grown in specially constructed lakes, which were flooded during the storms, with the result that many of the fish were killed in the streams and died from the hard life or lack of proper food. These goldfish were shipped in consignments of 40,000 to 50,000 at a time and the loss to one dealer alone was placed at \$2,000 this year.

Canada's Telegraph Bill

Canada's telegraph bill was \$11,222,522 in 1925, according to the Dominion Bureau of Statistics. A total of 11,226,541 telegrams were transmitted during the year, or more than one for every man, woman and child in the Dominion. Messages received from the United States numbered 2,747,274. Cablegrams dispatched to England and continental Europe totaled 24,036, while those received in return amounted to 5,179,951.

Proposed Timber Merger

A giant merger of timber interests in British Columbia, Washington and Oregon, involving \$100,000,000 of capital, is likely to emanate from plans now under way, according to the Daily Province. Several of the British Columbia mills—a quarter or a third of the whole—are said to be favorably inclined to the amalgamation.

Big Apple Crop In B.C.

British Columbia's apple crop is 250,000 boxes ahead of last year's production, according to W. E. Roberts, provincial horticulturist. The total has been estimated to be 2,500,000 boxes as compared with 2,250,000 last year. This year's total is the largest in the history of the province.

The Metropolitan (London) Water

Board supplies water to a population of 2,500,000 in London and the suburbs, and the main, placed end to end, would cover the distance from London to New York and back.

Provincial Seed Fair

The annual provincial seed fair and convention of Alberta seed growers will be held in Edmonton, January 18 to 21 inclusive. Entries for the fair close January 10, at the office of W. J. Stephen, Field Crops Commissioner, Edmonton.

Tax on Wolves

Conforming to the practice adopted in other western provinces, the Alberta Provincial Game Department has now decided to add to the list of fur-bearing animals on which a tax must be paid, the wolves of the province. These include the timber wolf, the grey wolf, and the prairie wolf or coyote, for all of which pelts in future a tax of twenty-five cents must be paid.

Two Weeks After Christmas

You wake up bright and early Christmas morning. You open the stockings. Christmas presents on Christmas morning are the most wonderful things in the world. Under the soft light of Christmas candles, every present looks like a priceless treasure.

On the day after Christmas, you begin to look at your presents more carefully. It is easier to decide which ones you like best.

One week after Christmas your preferences are very definite. Two weeks after Christmas, you have to stop and think a minute to remember what one of your friends gave you.

Why not give your friends a Christmas present that they can't forget, and would not if they could? The Youth's Companion comes once every week—fifty-two times a year. For \$2.00, what present could you possibly buy that would be more useful, more used, and better appreciated?

Just send your order to the address below and Santa Claus will take care of delivering the Companion to your home or to the home of a friend. Subscribers will receive:

1. The Youth's Companion—52 issues in 1927, and
2. The remaining issues of 1926. All for only \$2.00.
3. Or include Metal's Magazine, the monthly authority on fiction. Both publications only \$2.50.

The Youth's Companion, S. N. Dept., Boston, Mass. Subscriptions received by the Review-Advertiser office.

NOTICE

In the Estate of Robert Hamilton Simpson, late of Carmarthen in the Province of Alberta, Retired Farmer, Deceased.

Notice is hereby given that all persons having claims upon the estate of the above-named Robert Hamilton Simpson who died on the 2nd day of October A.D. 1926, are required to file with the Imperial Canadian Trust Company of Calgary, in the Province of Alberta, by the 31st day of January A.D. 1927, a full and true verified of their claims and of any securities held by them, and that after that date the executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to their knowledge.

Dated this 8th day of December, A.D. 1926.
The Imperial Canadian Trust Company,
Executor of the Estate of Robert Hamilton Simpson, Deceased.
331 Eighth Avenue, Calgary, Alberta.

T. C. Milnes left on Saturday last for a trip to States, visiting while there he will visit relatives at Columbus, Indiana.

Miss Doris Foster went to Lethbridge the first of the week to visit her mother who is a patient in the Galt hospital.

Provincial Deputy Grand Master Christie paid an official visit to Foot Hill Lodge No. 13, I. O. O. F., on Monday night.

The Rev. and Mrs. Barlow will be at home on Tuesday, December 14th, from 7 to 9 p.m., to the church members and friends of Claresholm.

The Blackbird Orchestra is playing a dance at the Odd Fellows' Hall December 17th, 9 to 11 p.m. Admission, 25c. Tickets \$1.00, ladies 50c.

Marlin Huxstad, a brother of Ole Huxstad, left for his home in Wisconsin on Monday night's train. He will make a brief stay in North Dakota on his way home.

Twenty-four hour electric service started on Monday. This is a long step in Claresholm's forward progress and is much appreciated by all citizens who use electric light or power.

The bazaar held by the ladies of St. John's Guild on Saturday last was a big success. The accumulation of the Parish hall was strained to the utmost. The receipts amounted to \$540.00.

Mrs. H. Dawson left for Calgary Tuesday morning to attend the funeral of her brother's wife, Mrs. Nelson Ford of Cochrane, who died in the hospital at Calgary on December 6th.

"We're in the Navy Now" is the picture secured by the Elks for the kiddies' Christmas entertainment on December 22nd. It is said to be the greatest comedy show on earth.

Manager Edlund has arranged to show this same picture Wednesday and Thursday nights, December 22-23, at regular admission prices.

We understand from reports published in the daily papers that J. L. Edlund is enlarging his moving picture business by building a fine new theater.

His new site has already been purchased on one of the best corners on the main street, at present occupied by the Ford garage, which will shortly be torn down to make place for the new building.

The local squadron have decided to stage their third annual military ball on Friday evening, January 7th. Plans are already underway to care for a capacity audience at the Odd Fellows' Hall on that occasion. In line with their policy to stage a "Bigger and Better" ball each season the members of the unit are already making preliminary arrangements, and have arranged for the Blackbirds to play for the dance.

Mrs. Trowdale is able to return home from the local hospital today.

The Claresholm Garage received a car load of new Chryslers on Monday.

The weather for the past week has been mild and fine, with chook winds on several days.

A. H. Wallis and H. B. Chamberlain went to Calgary Tuesday and Wednesday on business.

Qually & Yokum sold a new McLaughlin sedan to J. J. Strang and a Chevrolet coupe to William Lewis.

Miss Mariam Petersen is again with her parents Mr. and Mrs. Hans Petersen after an extended visit with her uncle at Wayne.

Edlund is now at the studio every day and will take photos by appointment or otherwise. Phone your appointment to Phone 132.

Leatrice Joy in "The Clinging Vine," with Tom Moore and Robert Edson, at the Rex theater Friday and Saturday nights this week.

A. E. McAllister, C. Foss and E. Fredericksen returned on Sunday evening from their hunting trip. They regaled cabinet, May does but no bucks, and had to come home empty handed.

A masquerade ball will be held on New Year's Eve, December 31st, under the auspices of Foot Hill Lodge No. 13, I. O. O. F. Prizes will be given for the best costumes, and there will also be musical prizes. The admission price will include lunch.

Monday evening, Mrs. Augusta Rudolph, who has recently returned from Medicine Hat, where she was visiting Mrs. J. A. Tench formerly of Claresholm, entertained a few friends at her home.

Those present were Mr. and Mrs. Hans Petersen, Miss Mariam Petersen, and Miss Anna Petersen.

The Claresholm Garage has lately installed radio sets for the following: Emil Nelson, a five tube Atwater Kent; Oden Burg, a DeForest Croley cabinet; May or Ringrose, a DeForest Croley cabinet; Clarence Matson and Mr. Horton, each took delivery of a new Ford touring car from them.

The C. G. I. T. group of the United Church held a silver tea at the parsonage on Tuesday evening.

Beautiful chrysanthemums (the gift of Mr. Lee Altick) centered the tea table, over which the girls themselves presided.

Those taking part in the program were the Misses Wilma Palmer and Rita Cockburn, and Messrs. Robinson and Mansfield. The latter also prepared himself very cleverly in his slight-of-hand artistry.

The girls wish to thank all their friends who helped make the tea a success.

Hockey Players Practicing

The hockey boys are getting down to business and are working out with a will. Manager Marshall has lots of material to build a team with, though the majority of the players will need intensive coaching and training before they can be effective as a unit. However, where there is a will, there is a way, and the boys appear to be willing.

Granum and Macleod have signified their intention of entering into a league with Claresholm. Staveland is still out and nothing definite was known about its intentions at time of going to press.

UNITED CHURCH

The committee in charge of the work now in progress at the United Church wish to announce that it has been found impossible to have the work completed for next Sunday as expected.

The opening services will be held on the following Sunday, December 19, when Rev. W. E. MacNiven will preach.

Next Sunday's services will be held in Harrison hall, both morning and evening. The primary school will meet as usual at 12:15 in Harrison hall.

The other part of the school is asked to come to the 11 o'clock service, when Mr. Dalgleish will speak on the Sunday school lesson.

Fourteen more shopping days till Christmas.

Never mind the first of the month. Christmas only comes once a year.

Wonder what Old Wiskers will put in our sock this year.

The only thing we found in it the last few years has been a hole.

Scotty Henderson asked us if we knew the difference between a Scotch man and a rubber heel.

He says if you squeeze a rubber heel there is some give, but there is no give to a Scotchman.

Now you tell one.

Latest bulletins say that the St. Andrews Society is in full pursuit of Scotty.

There have been a lot of organization meetings held lately.

Wonder when the tunnel gang elects officers?

We heard a fellow play the bugpipes the other night.

Good thing we got him out.

The hockey boys have been working out lately.

Use the bean boys, you have the muscle.

HERE AND THERE

Serious consideration to the construction of the new small game in the United States is being given by members of game and fish protective organizations in various states who are holding the nineteenth National Game Conference at the Hotel Pennsylvania, in New York City, December 6th and 7th.

Quebec—Estimates of the cutting of timber for the season 1926-27, which came from the latter part of August to the end of April, as compiled by experts here, are that the cut will be from 15 to 20 per cent. over last year's. In other words this season's cut will run to about 2,000,000,000 feet of timber.

Discharging over 1,500 third class passengers at Quebec, recently, the S.S. "Montcalm" and "Empress of Scotland" brought the immigration season on the St. Lawrence for the Canadian Pacific Steamships to a close. In the 74 Summer sailings, vessels of the fleet brought 40,000 immigrants to Canada, compared with 28,441 from 80 sailings in 1925 and 39,479 from 93 sailings in 1924. Average carrying per vessel in 1926 was 549, in 1925, 390, and in 1924, 421.

The big game season now nearing its close in the Lake Windermere region has been an unusually successful one. Parties from the middle western States have been numerous this year and their "luck has been in."

The nearness of those splendid breeding grounds, the Rocky Mountain Parks and the Provincial Game Preserves, has been a factor. Beaver trapping is now again an active industry, with recent restrictions removed. Many licenses have been taken out, and licensees being allotted a certain defined area.

Emmanuel B. de la Glosdoy, a native of Mauritis, who has been resident in Canada since 1908, has the official sanction of the Mauritis Government to make the necessary arrangements with the government of British Columbia for the establishment of a farm colony in the Pacific coast province, according to report.

"There are a few thousand people of English and French descent in Mauritis, who would be in a position to emigrate to Canada if a suitable agricultural colony were found," he says. He is busy at a scheme for such a colony in the Fraser Valley where fruit and mixed farming would be engaged in.

At a result of discussions at the Imperial Conference in London the cheap passage scheme under which British immigrants have been proceeding to Canada during the year is expected to be renewed. The most important result of the conference, however, will probably be the extension of the scheme of training prospective British immigrants for Dominion farms, instead of the 100 men secured by Canada in this manner this year, it is expected that the number of the scheme from 1,200 to 1,500 men will be obtained next year. A new ten weeks' course in simple farm training will be introduced and will be concurrently with the four months' course already in operation.

Farm Sales a Specialty

SPECIAL NOTICE To Gas Consumers

Mr. Wm. Cornish, who has been in charge of the Claresholm plant for the Canadian Western Natural Gas, Light, Heat and Power Company for some years, has been transferred to Granum, and will be in charge of Macleod, Granum and Claresholm, under direct supervision of R. S. Winter, district superintendent, at Lethbridge.

This arrangement should give the gas consumers a No. 1 service, as Mr. Cornish will give his full time to the Company's business, which includes service to our customers.

Mr. E. Young, of the KAY Realty Co., has been appointed the Company's representative at Macleod, and Mr. Harry Wyatt, of the Dodge Garage, has been appointed the Company's representative at Claresholm. Both these gentlemen will be glad to take your orders or complaints and pass them on to Mr. Cornish, who will give them prompt attention.

MOUNTIE, FAMED IN CANADA AND IN WAR, VISITS SALT LAKE

Denies He Was Shot as Spy: Has Mound of Trophies

Tall, straight and rugged at 60, Major G. H. School of the North-western Mounted Police of Canada, is visiting Salt Lake as a main stop on a winter lecture tour.

The major's account of himself depicts a career of adventure. He served the British government in the army and police for years in South Africa, and as a soldier of fortune, has seen plenty of action in Mexico. The major denies the report that he was shot as a spy in the London tower during the World war, though this story was made a newspaper feature at the time. He says he was completing the sale of \$500,000 worth of government Victory bonds to citizens of Canada of German descent when the captured spy used his name as a final alias.

At 60 the major still holds commissions of responsibility, not only covering the mountains of northern Canada as a mounted policeman but as fish and game warden, revenue agent and many other capacities, his credentials show.

Though appearing a man of iron, Major School says he is compelled to take a moment's rest from the cold region of his duty because of weak lungs, due to having been "frosted."

He is loaded with the trophies of a lifetime spent in Africa, northern Canada and Mexico. He has lectured before hundreds of schools over the country—The Desert News, Salt Lake City, Utah.

Victoria, British Columbia. — Famous Payser-Lucky now to establish a plant in British Columbia for this production, it was announced in connection with the \$100,000,000 known as the Famous Payser-Lucky Canadian Corporation, Limited, of Toronto.

Traffic in grain from Winnipeg also the Canadian Pacific Railway lines this year has been heavier than last year by over 12,000,000 bushels. The 1926-27 season has been marked and 62,019 cars loaded the increase over last year's ten month period were 12,188,437 bushels and 8,258 cars.

Antwerp, Belgium. — When the Canadian Pacific steamer Melita arrived recently, she was given an official welcome and a great popular demonstration as the ten thousandth vessel to enter the port of Antwerp this year. An elaborate programme was arranged in her honor.

Saint John, Moose are reported nearly three times as plentiful this year than last in the Quebec district, according to Burton L. Moore, well-known guide. The rapid increase of these big game animals points to migrations into the territory. Guides and sportsmen have not yet decided the source of the movement.

A great service to the travellers on the C.P.R. lines will be put into effect with the first sailing of the winter season of the C. P. liner "Melita," when for the sailings of the C. P. liners from Saint John to Europe between December 1st and April 15th, through tourist sleeping cars will be operated on C.P.R. trains from Winnipeg direct to the ship's side at the New Brunswick pier.

Desirous of popularizing old French-Canadian folk songs among the English-speaking people of this country, the National Council of Education, on the initiative of Major F. J. Vey, made recent arrangements with Charles Marchand, well-known singer, for a comprehensive tour of the Canadian west. The folk songs which Mr. Marchand will render in English have been specially translated by J. Murray Gibson, one of the publishers of the Canadian Pacific Railway.

Diversions of six miles of Canadian Pacific Railway tracks has now been completed and raising of three additional miles of track is under way in the Gatineau Valley. According to word received at headquarters of the company recently, this diversion has occurred between Miles 8 and Mile 11, and affects the stations of Grannum, Rocky View, La Chapelle, Bennett, and Carleton Place, well-known summer resorts in that district, while the station situated by the raising of the tracks is that of P. P. P. P. The work has been in progress since April of this year.

REPAIRING A SPECIALTY

Alberta's Great Victory

Winning for his home province of Alberta, the unprecedented feat of world championship in both wheat and oats, Herman Treble, a young farmer of Lake St. James district, near Grande Prairie in the Peace River country, was awarded both these championships during the past week at the International Hay and Grain Show in Chicago. It was in 1926, just thirty years ago, that wheat grown in the Peace River country won the championship at the World's Fair at Chicago. Since then, in 1923, Alberta won the wheat honor, when Major Strang was made champion at Chicago. In the same year Mr. Treble was placed third in wheat, but never previously have both the wheat and oats championships at Chicago gone to the same man and the same farm.

Mr. Treble's farm is unique in the west. It is a 100-acre station of Wembley, just west of Grande Prairie. He was born in Idaho and moved with his parents to Alberta in 1900. He was educated in Edmonton and the was cut short his studies at the University. He was rejected for overseas service and went to the home stead his father had filed for him when he was sent to the hospital. He produced of registered seed in 1926. He is 31 years of age. His own farms a section of land. His champion wheat weighed 64 lbs to the bushel and his oats 44 lbs.

Further awards to Alberta will be made known later. Awards in livestock have not yet been awarded, but it is known that two firsts and two seconds have gone to the University of Alberta animals. This Alberta has had a most successful season at the big show in Chicago.

Ripe plums are now being sent to England, arriving there in prime condition. The Ontario Department of Agriculture reports having made a trial shipment with excellent results, as attested by word from the other side. The plums were picked ripe and fully colored.

Vancouver.—The largest shipment of tree seeds ever made within the British Empire was that of 3,200 lbs. of yellow pine seeds from New Westminster to New Zealand by the Dominion Government seed extraction plant at the former place. A further cargo of 2,800 lbs. of seed is to follow shortly. This seed will be planted on waste lands in New Zealand.

Quebec.—The Canadian Pacific Railway has decided to add three hundred rooms to its famous hotel, the Chateau Frontenac, and to meet the requirements has taken options on a number of properties near the present buildings. Through the construction of the proposed new wing the Chateau Frontenac will probably become the largest hotel in the British Empire, having some 1,200 rooms.

Christmas travel from Canada to the Old Country is expected to be considerably heavier this year than last. The C.P.R. lines and by the Canadian Pacific lines. High wheat prices and good crops are given as the reasons for this year's great rush will be inaugurated virtually by the sailing of the C.P.R. liner "Melita" on December 1st, when a special train will be run to ship side at Saint John.
